GOAL OF THE PROGRAM

To identify and assist Alberta athletes with their future individual training and competition expenses by awarding funding based on individual accomplishments at the Provincial and National levels as well as those performances measured against Athletics Alberta standards.

PHILOSOPHY OF THE PROGRAM

The philosophy of the program is to fund U20 and Open identified athletes in the province. **AADP is a stepping-stone to Sport Canada Carding**. Athletes receiving this funding must compete at the Athletics Alberta Outdoor Provincial Championships and take part in Athletics Alberta programs, such as the Canada Summer Games team.

AADP SCORING CRITERIA

Athletes receive points based on performance, provincial championship placing, national championship placing, for participation on designated Athletics Canada National Teams, and for participation on Provincial Teams such as Canada Summer Games.

AADP STANDARDS

The AADP Standards are based on Canadian performances on a four-year average to reflect the strength of each event in Canada. Column 1 (26+ years "A") is based on the average of 10th place in the Open National Rankings. Column 7 (U20 "C") is based on 12th place in the U20 National Rankings. The standards are subject to adjustment to better represent the level of performance expected.

FUNDING ALLOCATION

- An ad-hoc programs committee will allocate funding utilizing the 3 tiers indicated below. The dollar value of each tier will be confirmed by the committee at the time of evaluation. **The selection committee can consider total points, World Athletics Points Tables, placing at National Championships, and placing at Provincial Championships when ranking athletes. Athlete trajectory may also be considered.**

Tier One

- Points will be totaled, and athletes will be ranked according to these totals. Athletes achieving an Open "A" (Column 1) standard will be considered for tier one funding first, and athletes achieving 'A' Standard in the succeeding categories may be considered to fulfil any remaining cards. The Technical Manager and the Programs ad-hoc committee will determine the number of cards given at each tier based on factors such as the number of applications, the annual funding budget, and the level of athlete performance.

Tier Two

- Points will be totaled, and athletes will be ranked according to these totals. Athletes must achieve a minimum of "C" standard in their category. The Technical Manager and the Programs ad-hoc committee will determine the number of cards given each year based on factors such as the number of applications, the annual funding budget, and the level of athlete performance.

Tier Three

- Points will be totaled, and athletes will be ranked according to these totals. Athletes must have a minimum of a "C" standard in their category. The Technical Manager and the Programs ad-hoc committee will determine the number of cards given each year based on factors such as the number of applications, the annual funding budget, and the level of athlete performance.

Para-Athlete Cards

- Athletes will be ranked based on their performance as a percentage of the 3rd ranked performance on the world top lists in Olympic or World Championship events. Up to 4 para-athlete cards may be supported at the Tier 1 or Tier 2 level. Athletes must minimally be classified at the national level at the time of the performance and selection to AADP.
